

# Veronica Marengo

## SUMMARY

7 years of experience in supply chain analytics. Combining ERP expertise (SAP S/4HANA) with advanced Power BI and Python. I've built automated dashboards to track gross revenue, conflict mineral risk and CO<sub>2</sub> emissions saved. Experienced managing end-to-end supply chain processes across planning, procurement, sourcing, and reverse logistics in cross-functional environments.

## SOFT SKILLS

Accountability  
Teamwork  
Adaptability  
Communication  
Storytelling

## HOBBIES

Chess  
Rock Climbing  
Flute

## PROFESSIONAL EXPERIENCE

**CEVA Logistics** Courbevoie, France

**March 2025 - Present**

### Global Sustainability Analyst (BI / Power BI)

- Created Power BI dashboards linked to live salesforce data, to track over 20,000 tons of avoided CO<sub>2</sub> emissions, and gross revenue by clients and regions for S&OP.
- Projected and reduced global client emissions by up to 30% using EcoTransIT to model sustainable logistics alternatives tailored to commercial and operational constraints.
- Developed an AI agent to develop a Power BI dashboard to track reusable packaging inventory monthly across different warehouses.

**ASM International** Phoenix, Arizona, United States

**June 2022 - July 2024**

### Supply Chain and Sourcing Analyst

- Proactively managed monthly pricing for 100+ parts critical to wafer processing equipment; secured quotes (RFQs) and commodity approvals, updating SAP PLM workflows to close over 90% of tickets within a week and streamline procurement operations.
- Acted as a Subject Matter Expert (SME) for ERP workflows, training and onboarding interns on SAP and SAP S/4HANA to ensure accurate part data management and sourcing activities.
- Created Power BI Dashboards to review conflict minerals from tier 1, 2, and 3 suppliers as a baseline, to progress the environmental, social and governance (ESG) goals.

**Honeywell Aerospace** Tempe, Arizona

**August 2021- May 2022**

### Strategic Commodity Manager

- Negotiated multi-year strategic contracts in collaboration with legal counsel, mitigating inflation impact by 5% and securing the global supply against stockout risks for a 2–5 year horizon.
- Purchased smaller, low-cost parts in larger quantities from distributors, with a 15% per-unit cost reduction.
- Produced global sourcing strategies to align with over 50 suppliers on pricing, quality, on time delivery and year over year productivity.

**Honeywell Aerospace** Tempe, Arizona

**January 2021- August 2021**

### Customer Operations Analyst

- Provided daily updates to a top customer ensuring the delivery of over 200 critical parts per month, to maintain a valuable client relationship.
- Communicated internally with cross-functional teams such as operations, manufacturing, quality, logistics, procurement, and global planning to resolve 95% of internal obstacles within 48 hours.

**Honeywell Aerospace** Tempe, Arizona

**July 2020- December 2020**

### Fulfillment Specialist

- Managed relationships with over 25 key suppliers to ensure on-time delivery.
- Updated more than 70 purchase orders weekly on SAP to guarantee information accuracy for suppliers, customers, and internal stakeholders.

**Honeywell Aerospace** Tempe, Arizona

**January 2020 - July 2020**

### Spares Production Planner

- Released and shipped \$1M in revenue per week on SAP to meet production goals.
- Increased revenue by 12% at the end of each quarter by developing a demand planning and forecasting report to identify opportunities and adjust the production plan.

## EDUCATION

**Data Science & Business Intelligence** Master of Science

**July 2026**

EDC Paris Business School, Puteaux, France

Relevant Courses: *Statistics, Python, Data Visualization, Cloud Computing, Applied Machine Learning, Data Engineering, Deep Learning, Forecasting, Natural Language Processing (NLP)*

Thesis: Sourcing strategies to procure critical minerals considering US/China trade tensions

**Supply Chain Management** Bachelor of Science

**December 2019**

**Business (Sustainability)** Bachelor of Arts

**December 2019**

W.P. Carey School of Business, Arizona State University, Tempe, Arizona
